Sidewinder® Sleeve: 5601

Coated side on Left—Uncoated on Right

5601 Material Features

- Material: 1000 Denier Cordura (10.5 oz.) with 7 mil urethane coating
Meets MIL-C-83489, FED-STD-191A, MIL-STD-810F
- Temperature Range: -60° to +250° F
- Abrasion: Excellent; meets ISO 6945 Specifications
- Puncture/Tear: Very good; resists tearing
- UV protection: Excellent; meets EN13758-1, top rating of 80 New
- Chemicals: Very good resistance to water and petroleum
- Wicking: Excellent resistance to absorption
- Welding Sparks/Spall: NOT Recommended

Typical Applications:

Great for most mobile and industrial applications. Excellent choice for bundling hoses, wires, and cables. The heavy urethane coating provides super low coefficient of friction. Provides excellent abrasion resistance for wet, high UV and crisp edge applications. Operator protection meets EN982, ISO NORM 833, EN414. Remains very flexible regardless of temperature.
